# Routing Patterns

- Debe ser una lista de palabras, delimitada por puntos. e.g. health.education
- (\*) significa exactamente una palabra permitida.
- (#) significa cero o más palabras permitidas
- El punto (.) significa – delimitador de palabra. Varios términos clave están separados por el delimitador de puntos.

# Routing Patterns

Routing Key Pattern	Valid Routing Key	Invalid Routing Key
<b>health.*</b> – <b>health</b> como primera palabra seguida de una palabra	health.education,	health, health.education.anything, health.education.sports
	health.sports,	
	health.anything	
<b>#.sports.*</b> – cero o mas palabras, despues <b>sports</b> , adespues una palabra.	sports.education,	sports,  education.sports,  anything.sports.anything.xyz
	sports.sports.sports,	
	sports.sports	
<b>#.education</b> – cero o mas palabras seguida de education	health.education,	education.health,  anything.education.anything
	education.education,	
	education
